

NFCA Successfully Defending The Championship at the 8th Zambia National Mine Rescue Competition

On August 17, Zambia local time, the Eighth Zambia National Mine Rescue Competition was held at the Lumuwana Mine in Northwest Province of Zambia. The Mine Rescue Team of NFC Africa Plc (NFCA), an enterprise of CNMCL in Zambia, successfully defended its championship. The team was headed by Mr. John Mtonga, president assistant of NFCA.

All the six members of NFCA team are from the company's Operation Department. In the internal rescue competition held in early July of 2013, they defeated other six teams and became representatives of NFCA to attend the national competition. Thanks to their joint efforts, NFCA won the championship of Zambia National Mine Rescue Competition for the second time after its victory in 2012.
